EDUCATION

NATIONAL INSTITUTE OF TECHNOLOGY, WARANGAL

GPA: 8.28, B.Tech CSE
Jun 2017 | Warangal, India

XII BOARD

98.3%, MERIT RANK HOLDER
May 2013 | Hyderabad, India

SKILLS

Microservices

Processed >25 Billion transactions
Nodejs, Python, Go, Java

Databases

Redis, Elasticsearch, MongoDB
MySQL, PostgreSQL,

Distributed systems

Kubernetes, Docker, Azure, AWS
Apache Kafka, Nginx, HaProxy

Analytics

Apache Druid, Spark, HBase, TiDB

Monitoring/ Logging

Prometheus, Fluentd, ELK Stack, Nagios

Frontend

React, Redux, VanillaJS

Familiar:

RabbitMQ, Airflow, JS frameworks,
Pandas, Numpy

COURSEWORK

UNDERGRADUATE

Data Structures and Algorithms
Database Management Systems
Operating Systems
Computer Architecture
Cloud Computing
Object Oriented Programming
Systems Programming
Cryptography and Security
Operating Systems
Data Warehousing and Mining
Compilers
Distributed Computing

EXPERIENCE

YELLOW.AI | ENGINEERING MANAGER/ ENG. EMPLOYEE #2

Jan 2018 – current | Bengaluru, Karnataka

- **#2 Employee:** I worked closely with the CTO to build the product from scratch. As a conversational AI provider we have scaled from **50k msgs/month to 250M msgs/month**. We process more than **4B** events a month.
- **Campaigns Module:** Grew/ Hired for the team to **13 devs over 2 years**. Conceptualised and started this. Achieved **2 Billion** Notifications on WhatsApp. It is now a key business vertical. I am responsible for the customer NPS, revenue, liaising with the product, UX and other teams.
- **Realtime Analytics:** Currently leading this to provide a real time dashboard similar to google analytics. I lead this with **3 devs**. Introduced **Kafka** and **Lambda Architecture**. Maintained **15 Node Elasticsearch Cluster (5B documents)**, **Logstash pipelines** and **Apache Druid (20B events)**.
- **SOS Person :** I was involved in almost every production outage. Highly experienced in working under stress of outage, providing innovative solutions, evaluating trade-offs to quickly get back online.
- **Initial Infrastructure:** Helped setup almost everything in the first 2 years till we had a dedicated infra team. Azure, AWS, LBs, VMs, API Gateways, Nginx, DR setup, MongoDB, Redis, Real time messaging systems.
- **ISO 27001:** Led this effort. fortified VMs, deployed network monitoring , auditing systems, an ELK Stack.
- **K8s Executor:** Executes jobs on Kubernetes. Similar to Airflow but multi-tenant, custom built for Yellow's workflow and for simplicity.
- **No code Builder:** . Business Flows/ APIs using a drag and drop editor.
- **In-house FAAS:** Cloud functions (only nodejs), resource limits, CI/CD and debugger.
- **Monolith-> Microservices:** moved to Docker Swarm and then **Kubernetes**.
- **Monitoring/Alerting:** Setup using Prometheus, Grafana, Nagios.
- **Web Portal:** Enterprise admin portal as a part of an initial three member team using React/ Redux.

ARCESIUM (DE.SHAW SPIN-OFF) | MEMBER TECHNICAL

July 2017 – Dec 2017 | Hyderabad, India

- Worked on Java, Spring, Tomcat, REST APIs to generate timely reports. Contributed to the reports web portal.

QUALCOMM INTERN | PPO OFFERED

May 2016 – July 2016 | Hyderabad, India

- Worked on design of algorithms for efficient rendering of graphics on Android N providing greater than 60% improvement in performance at the same energy consumption.

AWARDS

2013	1033/15 Lakhs	JEE Mains. Awarded Tuition Fee Waiver for this.
2013	StateWide	Merit Scholarship by Intermediate Education, Telangana
